COMMENTS FROM THE TOWN MANAGER'S OFFICE

The first week after the tax bills were mailed produced payments in excess of \$17,000. The second week has also started with a lot of payments. Quite a few people have commented on the reduced rate this year. I would again like to state that we are glad to accept any partial payment. It helps the financial condition of the town and makes it easier for some taxpayers to get their bills paid.

Although I haven't commented on it recently the highway work is proceeding very well this summer. The highway crew has started the last section of town road improvement for this summer. The road presently under construction is the Grover Hill Road. The road starts where construction was stopped in 1963. The present plans call for building between .6 and .8 of a mile. Prospects of finishing the planned work this summer are better than any of the past few years.

As most people know, several parcels of tax acquired land were put up for sale. Most of the former owners offered to pay all expired liens plus all other liens. Where these offers were made, the selectmen accepted the payments and they did not sell the property. The next time the board might be of a different temperament and sell to the highest bidder regardless of offers to pay all back taxes. I would therefore urge anyone to pay his taxes before a lien is put on. If a lien must be put on, I would urge him to pay the lien before it expires.

One item that I would like to mention at this time is suspected errors on tax bills. If you think there is an error in your tax bill, you should notify the town office at once. If there is an error, it is much easier to check and correct it now than it is the last week of December.

READING HOURS AT THE LIBRARY SUCCESSFUL

Under the direction of Mrs. Ted Chadbourne, and assisted by Mrs. Arnel Brown, a most successful series of reading hours were held the week of Aug. 5-12, from 1:30-2:30 p. m. at the Library. Each day the attendance grew, with the last, the banner day.

Joan and Mary sprinkled the hour with variation, including reading, records, singing and games. The staff, as well as the parents and the children, appreciate the efforts and success of these leaders.

RED CROSS PLEA

The Reserves of the national Red Cross have been seriously depleted because of the many disaster areas created by floods, tornadoes, fires, riots, and not the least, the Vietnam war demands for hospital bills and house service. Even our swimming classes ran at a loss although awarding 37 more certificates than last year.

So it is necessary to ask for unusual donations at this time. Please remit to the Bethuel Branch chairman, Mrs. Sarah Stevens.

SCHOOL DISTRICT DIRECTORS MAY BORROW MILLION IN ANTICIPATION OF BONDS

Meeting at Locke Mills Monday evening, Directors of S. A. D. 44 devoted most of their meeting to preparations on the proposed junior-senior high school.

The directors were authorized to borrow funds as necessary, in anticipation of the bond issue, from Canal National Bank, to the limit of \$1,050,000. The chairman of the Board of Directors was authorized to borrow from the Canal National Bank, with approval of the finance committee, and to place on deposit, an amount of \$966,000 in anticipation of state funds.

After a discussion of certain alternatives in the building plans, the directors moved to request the architect to include the completed offices for the superintendent, storage space and the completed elevator in the base bid.

They further voted "future classrooms," as designated on the plans, be unfinished—gravel fill without partitions.

Approval of completion of preliminary site work, on the former Lutton lot, on Route 26 south of Bethuel village, shall be made by the architect and building committee. This is moving along steadily, the work being done by P. E. Dunn of Poland.

Dale Curruthers, engineer, is to inspect the site and make recommendations for the water supply. The directors had decided, in a special meeting a week ago, that the new building should be heated by an oil-fired system.

The next meeting will be held at the Raymond C. Foster School, Newry, at 7:30 p. m., Monday, Aug. 29.

NORWAY MAN APPOINTED AS FIA COMMITTEEMAN

Edward Kahkonen of Pike Hill, Norway, has recently been appointed as a Farmers Home Administration committeeman for a term of 3 years according to Elwyn R. Morrow, County Supervisor to Oxford County.

Mr. Kahkonen is a poultryman who formerly raised hatching eggs, but now he raises 15,500 broilers for a local processor.

Kahkonen is married and has four daughters. He replaces Wendell Twitthell of Bryant Pond in this three member committee.

Other members of this committee serving with Mr. Kahkonen are Alvin Brown of Waterford, who is chairman, and Erville Fernald of Stow. The purpose of the Farmers Home Administration committee is to review and act on all FIA loan applications. When they met this week 23 applications were reviewed by the committee.

Mrs. J. Gordon Bates of Houlihan and Mrs. Harold Parkhurst of Pittsfield have been guests for several days of Mrs. E. J. Webster and Miss Mira Stevens.

MAINE FAMILIES REMINDED TO FILL OUT HOME SURVEY SHELTER FORM

Most households in Maine, including those of summer residents, will receive a post card in the mail within the next few days. It's from the Census Bureau reminding you to fill out and mail back your questionnaire for the State-wide Home Fallout Protection Survey which the Bureau is conducting for the Maine Office of Civil Defense and Public Safety.

The Census Bureau urges everyone who received a questionnaire to return it in the self-addressed, postage-free envelope as soon as possible. The form should be returned whether you are a renter or a homeowner, whether you live in a one-family home, or a house with two or more families, an apartment, and any other type of building.

Questionnaires were delivered within the past week to all home addresses in one-, two-, and three-family dwellings in Maine. The questions are few and easy to answer. They're about the way your house is built. How many floors? What kind of roof? Does it have a basement? If so, what is the height of the outside basement walls?

Based on your answers, an electronic computer at the Census Bureau will figure how much protection you and your family have at home. If you have a basement, the computer will figure the degree of fallout protection in your basement. A specially prepared Civil Defense booklet will be mailed to you. A label on the cover will bear the fallout protection factor (degree of protection) of the best parts of your basement. This information will be confidential to you and the Census Bureau.

If you do not have a basement you'll receive a general information booklet on protective measures that can be taken by individuals and families.

Guests of Mr. and Mrs. Arthur Lincoln and family, Wednesday, were Mr. and Mrs. Roger Polson, Sr., of Pawtucket, R. I.

Gould Academy classes of 1929 and 1931 will hold their annual reunion on Sunday, August 21, at Ladd's Wayside Inn, Bethuel.

Mrs. Donald Mott and three children of Cherry Hill, N. J. arrived today (Thursday) to spend ten days with her parents, Mr. and Mrs. Lawrence Lord.

David Brown's present address is 3300 returning from furlough 437 David B. Brown, 11401015, Hq. 62 MAW CMR 02, Box 12427, M. C. HART AFB, Washington 20340.

SPECIAL TOWN MEETING FOR BETHUEL TO BE HELD MONDAY EVENING

A special town meeting will be held for Bethuel at Odeon Hall, on Monday, Aug. 22, at 8 p. m. Decisions are to be reached on four questions.

The first question asks permission of the voters to borrow \$15,000 for the purchase of a 4-wheel drive truck and plow. The amount of the loan to be repaid in annual payments from the truck rental account. The vehicle which is sought would replace a unit to be traded in.

A transfer from surplus of \$1,000 is sought to prevent a possible overdraft in the police account. An overdraft may occur because of additional expense money paid since May and the necessity of purchasing additional uniforms. Also provision of additional constable coverage at times has been charged to this account.

Voters will be asked to act on a proposed ordinance that would state: "No person, persons, or group of persons shall stand or loiter on foot or in a motor vehicle or motor vehicles upon any sidewalk or cross walk or in any street, square, lane, alley, park, or public way, in any entrance of any public building after having been requested to move by any police officer or duly authorized constable." Those found in violation of this proposed ordinance could be fined up to \$20.

Action is again sought on a proposed "curfew" ordinance defeated at the March 1965 meeting. The ordinance would make it unlawful for anyone less than 17 years of age to be on the streets, sidewalks, public ways or in a public place after 9 p. m. The curfew hour would be 10 p. m. during summer school vacation. Exception would be made if the youth was accompanied by an adult having control of his behavior or was returning from a school function or other function to which those of his age were admitted.

If it is the desire of the voters attending the special meeting a secret "yes" or "no" ballot may be taken on the more controversial questions involved. All Bethuel voters are urged to attend the meeting at Odeon Hall, Monday, Aug. 22, at 8 p. m.

Arthur Garber is in the CMG Hospital in Lewiston where he underwent surgery Tuesday. He is making a good recovery.

Mr. and Mrs. Ernest Perkins and Jimmie were week end guests of Mr. and Mrs. James Trenholm of Kingfield and Mr. and Mrs. Joe Welch and family, of East Wilton.

SUNDAY RIVER

Mrs. R. M. Fleet, Cor.

This bit of history is as near correct as the writer has been able to find in two years of searching.

The Lower Sunday River school was built about 1895 or 96 at the cost of (\$500) five hundred dollars while the shed was built in 1902 at a fifty dollar cost on the property of Oscar and Virginia Littlehale.

The travel back to the days when roads were just plain dirt and cars were very few.

When schools were many and teachers too. There was a school here just about every three miles in many a town and the children walked unless perchance some stormy day when a thought came would hook up old Dobbs and give us a lift.

There was such a building nestled in the corner of a field near a very convenient brook where many of the older generation attended their three Rs but in 1895 the little Old Red School either became worn or burned so a new one was built to take its place.

It has been in use ever since, not only as a rural school but for some church services were held here Sunday when a minister could be had in town. But the church services have been discontinued, only the Sunday School is still carried on by a grateful few.

Here are the last names of only a few that either lived here or of their lives or were in school here since 1895: Fosters,

WARRANT FOR

SPECIAL TOWN MEETING

To Earl Barker, Constable of the Town of Bethel in the County of Oxford and the State of Maine.

In the name of the State of Maine, you are hereby required to notify and warn the voters of the Town of Bethel in said County and State, qualified by law to vote in town affairs to meet in Town Hall in said town on Monday, the twenty-second day of August, A. D. 1966, at eight o'clock in the afternoon, then and there to act upon the following articles, to wit:

Art. 1. To choose a moderator to preside at said meeting.

Art. 2. To see if the Town will vote to authorize the Selectmen and Treasurer to procure a loan not exceeding \$15,000.00 to purchase a four-wheel drive truck and a snow plow, and authorize said to execute and deliver notes on behalf of the town therefor, signed by the Treasurer and assigned by the Selectmen. The loan to be paid back by annual payments from the equipment rental account.

Art. 3. To see if the Town will vote to take \$1,000.00 from Surplus to offset any possible overdraft in the police account.

Art. 4. Shall an ordinance "Littering" be enacted?

Art. 5. Shall an ordinance enacted "Curfew" be enacted? Art. 6. Shall be unlawful for any person, male or female, under the age of seventeen years, to be on the streets, sidewalks, public ways or other public place in said town after nine o'clock in the evening during the school year or after ten o'clock in the evening during the summer school vacation unless accompanied by a parent, guardian or other adult.

Art. 7. Control of such person who provision shall not apply to a person who is returning directly to his house from school celebration, dance, or other function or a public event or entertainment to which persons of such age are admitted.

Persons in violation of this ordinance shall be considered to be offenders and shall be dealt with as such according to the law of Maine and may be punished by a fine not to exceed twenty dollars (\$20.00).

The Selectmen hereby give notice that the Register of Voters will be in session in the Town Manager's office from 8:30 A. M. to 4:30 P. M. on Thursday, August 18, 1966 to accept new registrations and correct the voting list.

Given under our hands this 15th day of August, A. D. 1966.

Beans, Powers, Williamson, Jackson, Sweeney, Trask, Kendall, Emman, Fleet, Reynolds, York, Heino, Bowen, Belanger, Baker, Eames, Stowe, Littlehale.

Those with the largest families were Jacksons, Beans, Heinos, Fosters, and at one time there was a Nowlin in each of the eight grades. The smallest family was the Fleets with one in each family.

The school has been looked after by the R. M. Fleet the past few years since there was a change and the children were all transported to Bethel schools.

As for Mrs. Fleet with the help from time to time of Mrs. Lina Reynolds, Mrs. Laura Yates Adams, Miss Sheila Roberts, have held Sunday School from the last Sunday in March to Christmas time. Then closing for the winter. There has been many times when no one has been able to help but Sunday School has gone along just the same.

Now in Aug. 1964 we had a big boost from Mr. and Mrs. Ramon Baker with all families with children attending Sunday School helped out on a new coat of outside white paint and cleaning up around the grounds. Mr. Baker furnished the paint. Later Mrs. Daisy Crosby gave money to get something and on the window boxes were made and Mrs. Jane Baker gave the flowers. They are big improvements if we can care for them. Then on Aug. 4, 1965 a new large stone was placed in front of the door for a step and when the weather has it worked into the ground and settled another will be added. This will do away with building any more plank steps in the future.

We have a Vacation Bible School every summer with from as many as 40 children down to 20 this year, 1966.

The 1966 year is just half gone with the Vacation Bible School which closed Friday Aug. 12 in the evening. This picture shows the steps are just about completed. Also that we were very lucky to have the largest helping staff ever. They were Thomas Lezer, student minister and secretary, Mr. and Mrs. Douglas Clogston, Philip Russell, Ramon George and Mrs. Mary Moore. Mrs. Julia First stand in. 28 SECONDS WITH THE NAZARENE

Do not be troubled because you have not great virtues. God made a million blades of grass where He made one tree. The earth is carpeted and fringed not with forests but with grasses.

Only have enough of little virtues and common fidelities, and you need not mourn because you are neither a hero nor a saint.

—Henry Ward Beecher

Report to MAINE

from
Senator Z. McKim

The House Appropriations Committee is expected to make its recommendations on our Dickey-Dam project soon. Already, anticipation of the Committee report has touched off a new wave of emotional and irrelevant arguments against Dickey and lower power costs in Maine and New England.

Congressman Frank Clark of Pennsylvania has inserted in the Congressional Record an article by Raymond Moyle in the February 28th issue of "Newsweek" magazine.

Congressman Clark called Mr. Moyle's article an "infectious" display of Dickey 1 call it a shoddy piece of reporting.

Mr. Moyle's argument against Dickey is based on a string of factual errors and misstatements.

For instance, he wrote that Dickey was also included in President Franklin D. Roosevelt's Panama Canal proposal in 1904. The truth is that development of the St. John River was not advocated in 1904.

Mr. Moyle wrote that the International Joint Commission reported on Dickey in 1950. The truth is that the Commission did not make its report until 1961.

Mr. Moyle wrote that Congress passed the Dickey Dam project in 1950. The truth is that it contained the President's

the value of further study of the project.

Mr. Moyle wrote that in 1965 Secretary Udall "decided that harnessing the tides of the Bay of Fundy was not feasible."

The truth is that at no time has Secretary Udall ever suggested that Quoddy is not feasible.

Mr. Moyle said the Dickey project including transmission lines, would cost a total of \$221 million. He arbitrarily overpriced the project by \$7 million, a small mistake percentage-wise, but typical of his disregard for the facts.

Finally, Mr. Moyle wrote that Dickey would be obsolete before it was completed because of the development of nuclear plants. The truth is that the need for Dickey's peaking power will increase, not diminish, as more thermal generators are installed.

No thermal plant, whether it be fueled by nuclear energy, oil or coal, can produce peaking power quickly and cheaply. But Dickey will. It also will be able to produce base power or whatever mix changing circumstances require.

It appears clear that the same private interest groups which opposed Dickey last year will campaign against us this year too.

It is clear also that we can expect a heavy dose of half truths and misstatements from them, the same that we heard last year.

will not make one thing. If we continue our present trend, we are headed for more trouble than we ever had.

If the same taken, it makes me feel that a half dozen boys in town, who may be pushing their luck, are causing the town to turn against all teenagers, and exaggerating our whole problem. I also feel that we are underestimating a condition that will certainly continue to aggravate our present problem until some kind of action is taken to clean up the town. CONSUMER CREDIT CURBS MAY HELP SMALL BUSINESS

There are some indications developing that the proposals being discussed at some administrative levels to curtail consumer installment and other credit terms may be of assistance to independent business, who are apparently having trouble "keeping up with the Jones," or the big corporate merchandisers who offer long-term credit to consumers.

This preliminary conclusion is reached by an analysis of the first returns, numbering over 20,000 to the current 1966 field survey being conducted by the National Federation of Independent Business.

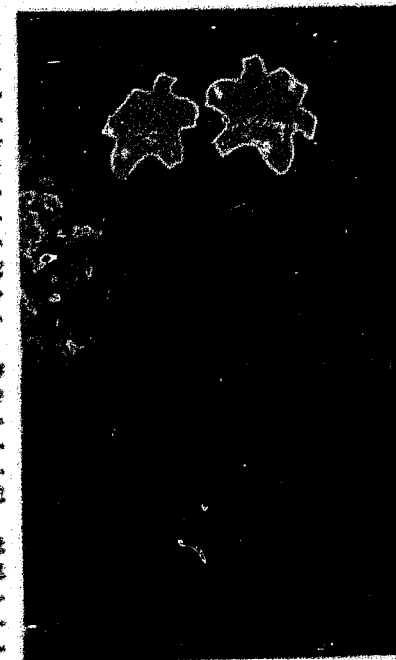

The analysis is showing that 70 per cent of the independent business firms that have expanded, did so either by increasing inventories, or increasing accounts receivable.

In addition, 41 per cent of all independent proprietor - respondents including both the 28 per cent who have expanded since last year, and those who have not, report difficulties with collections. Of those who expanded only 27 per cent report they are able to finance their own accounts receivable and look toward outside sources of capital to assist in financing them.

Of those who expanded, 78 per cent depend on this aid from their local bank and only 2 per cent look to their manufacturer or supplier for this help. Of those who have not expanded only 64 per cent depend on their banks, with 14 per cent looking to their supplier or manufacturer for such aid. Small Business Administration loans are depended upon by 5 per cent of those who expanded.

Apparently, these preliminary findings are revealing that the independent business is experiencing difficulty in staying competitive against the big corporate merchandisers who are able to offer consumers such easy payment plans as long term revolving credit, and other plans whereby the consumer pays only a small fraction each month of the balance owed at any time.

Commenting on these findings, Federation president C. William Harder says, "If it is necessary to head off inflation, raising income taxes will not do the job. First of all, of course, unnecessary government spending should be slashed, as the inflationary trend is a result of reckless gov-

AN EASTER LILY IN AUGUST may not be too extraordinary but this one must have come from real hardy stock. Last year nothing happened and it was feared that the bulb had rotted in the ground but this year it has grown and produced two blossoms pictured above.

ernmental fiscal policies. But much of the inflationary trend experienced today is created by the excess use of credit. As long as people can find some firms willing and able to extend such long credit plans as at present, there will be no dampening of the course of inflation as long term credit purchases will continue pumping up the balloon."

In addition, he raises the question as to whether or not increased taxes at this time will not divert enough money away from the lower and medium income family budgets to result in a further increase in personal bankruptcy cases, now considered to be at an alarmingly high level.

Mr. and Mrs. Ernest Angevine and Judy attended the New England dealers meeting at the Kings Grant Hotel, Danvers, Mass., on Tuesday and Wednesday of last week. They spent Thursday and Friday with their daughter and husband, Mr. and Mrs. Robert Bando, West Yarmouth, Mass.

"Great is our Lord, and of great power: his understanding is infinite." This well-known verse from Psalm 147 is the Golden Text for this week's Bible Lesson-Sermon on "Mind" to be read in all Christian Science churches on Sunday.

Included among the explanatory readings from the denominational textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, will be these lines: "Nothing is new to Spirit. Nothing can be novel to eternal Mind, the author of all things, who from all eternity knoweth His own ideas. Dearly was satisfied with His work. How could He be otherwise, since the spiritual creation was the outgrowth, the emanation, of His infinite self-containment and immortal wisdom?"

HATHAWAY REPORTS

Last week, Maine citizens were again reminded that the opponents of Dickey Dam and the cheaper power it will provide have not relented in their efforts to obstruct the construction of the hydro-electric facility.

Even before the House Committee on Public Works has issued its report on the money requested for pre-construction planning of Dickey, Congressman Frank Clark made a bitter speech before the House denouncing Dickey.

It is especially annoying to power consumers that their interest in and thus the public well-being is continuously subjected to attack by individuals and organizations whose sole concern is for a three year term. Other members of the committee are Alvin Brown, Waterford and Ervold Fernald, Stow. The committee reviews and acts on all FEA loan applications.

Thirteen nurses aides received caps and certificates Friday for satisfactory completion of the course at Rumford Community Hospital. Mrs. Margaret Roberts, B. N. made the presentations. Aides are: Mrs. Jane Burke, Mrs. Henry Dege, Mrs. Merilee Jod, Mrs. Gloria Johnson, Miss Rita Jean, Miss Debra Meiner, Mrs. Margaret Mills, Miss Brenda Nadeau, Miss Victoria Roberts, Miss Beatrice Roman, Mrs. David Smith, Miss Christina Stewart and Mrs. John Trubee.

Danny Bennett, 4, son of Mr. and Mrs. Walter Bennett and John Bennett, 6, son of Mr. and Mrs. Harold Bennett, both of Yarmouth, were found apparently unconscious after being about 10 to 15 minutes for some time Tuesday. The two youngsters had been running for about five hours. The truck was about a quarter of a mile from their home, Howard Avenue, Oxford County Civil Defense director found the youngsters. The Norway police, Paris police fire department and local citizens aided in the search.

for the profits and self-interest of the people they represent. Congressman Clark was speaking for the Pennsylvania coal interests and the private power companies. The private power officials are advocating the retention of their monopoly which is presently charging Maine power consumers rates 28 1/2 percent above the national average.

Most congressmen regard the merits of Dickey as already decided. The great public debate ended last October when the House authorized Dickey and the President subsequently gave his signature to it.

It is generally acknowledged that once a bill is passed by Congress as a matter of course depending on the public funds available.

This is the way Dickey is being treated. But it is being treated as a private power company's proposal to defeat Dickey has been recently not abated. This is a matter of life of which we should be aware.

It was heartening to hear the House recently demonstrated belief that fish protein concentrate is a potentially valuable weapon for waging world peace. In June, the House passed the Food for Freedom Act which that fish protein concentrate would be purchased and distributed abroad.

Many congressmen and myself have filed bills authorizing government construction of fish plants to test the value of processing the fish waste.

I signed fish protein concentrate as particularly pertinent to Maine because of our great share fishing resources and because of the probability that one of the first fish protein plants to be located in New England.

Community Clean Up of Athletic Field is steadily progressing. Preceding the first Pony League game last month, Ole Olson mowed the baseball field. Since then Aiden and Harlan Redding have been doing the machine work of mowing and baling hay and Harold Perham has cut brush along the entrance road to the field. Newton Lamb, Merle Lang, Peter Collette and Gil Tuell cooperated in moving three junk cars by the old garage and cleaned the roadway of brush. A young squad went into action. They were Robert Newell, Gary Waterhouse, Todd Poland and Kevin Farr. This squad suggested cleaning off grandstand and that a new set of metal figures be made for the scoreboard, both projects taken care of by the boys. Materials, paint and brushes were furnished by Charlie Gordon, James Young, and Norman Emery, members of the Athletic Field Committee checked the grandstand for need repairs and will take care of same.

On Friday the South Paris section crew performed a good job cutting down the brush on the railroad right of way so that moving trains can be seen readily from all directions. They were George Kimball, Wilfred Danforth, Carl Brooks, Alphonse Langer, Michael Kluchack, Chester Goulding. It is expected that next year the Athletic Field will be the home field for Pony League games.

This community field in the past has been improved as a community project through the combined efforts of the West Paris Alumni Association, the Ring-McKen American Legion and the community in general. This year the Chamber of Commerce has already assured the C. A. F. Committee of their support. With a new bank overlooking the Athletic field across the river the clean-up job going on is a matter of civic pride as well as to keep on providing a playing field for our young folks. Volunteers are needed to cut brush along the river bank. Contact Ed Perham for further information.

Mr. and Mrs. Nathan Small were Monday guests of his brother-in-law and sister, Mr. and Mrs. Lorenzo Littlehale, Auburn. Mrs. Eva Keniston and Mrs. Clara Gordon have returned from Rumford Community Hospital and the CMG Hospital.

PARENTS URGED TO SUPPORT SCHOOL SAFETY PROGRAM

A member of the Executive Board of the Maine Highway Safety Committee has called on all parents to "support your school's safety program."

Miss Ellen Mullaney of Bangor said in a statement released by the committee's office on Thursday that pedestrian accidents involving young children are on the increase in Maine. Said Miss Mullaney, "Parents should take time to teach their children how to cross streets safely, the laws governing pedestrians, the rules of bicycle riding, and also teach them to foster good safety habits in everything they do."

She also called on parents to help support and even help out in school safety programs. She suggested that interested parents contact their school principal or superintendent to see what they can do. Miss Mullaney then offered the services of her committee to help out on established programs.

As a final suggestion, Miss Mullaney asked anyone interested in helping to get a program started to write her, care of the Maine Highway Safety Committee, State House, Augusta.

Miss Donna Lee Proctor

Mr. and Mrs. Ivan Proctor, Sr., West Paris, announce the engagement of their daughter, Donna Lee, to Owen Preston Melville, son of Mr. and Mrs. Charles Melville, Locke Mills.

Miss Proctor was graduated from West Paris High School in 1964, and is now employed at B. E. Cole Shoe Co., Norway.

Mr. Melville was graduated from Gould Academy with the class of 1962. He recently completed a two year term in the Peace Corp serving in Niamey, Niger, West Africa. He will attend Ft. Lewis College, Durango, Colo., in the fall.

No date has been set for the wedding.

COAST GUARD HAS OPENINGS FOR PRIOR-SERVICE PERSONNEL

The U. S. Coast Guard announces it now has immediate openings for prior service personnel. Ex-Navy and Coast Guardsmen, may, in most cases, be enlisted, at the same rate held at the time of last discharge. Further information may be obtained by contacting the local Coast Guard Recruiting Office at 75 Pearl St., Portland, Maine or by phoning 774-5415.
